

Tailor-made finance, the easy way!

An Operating Lease is an excellent way to acquire technology-sensitive business equipment. It enables you to maintain leading-edge equipment and infrastructure without incurring up-front costs, thereby freeing up your capital for more productive uses.

Ask about our finance packages from as little as \$55 per week!

Maximise Capital Budgets, Minimise Tax Impact

Equipment under an Operating Lease does not appear on your balance sheet as it's funded via operating expense. The equipment acquisition has no impact on capital budgets, and Operating Lease payments are treated as a 100% tax deductible expense item.

Update And Upgrade

The Leasing Centre's Operating Lease facility provides ultimate flexibility. You can update, upgrade or add-on equipment without penalty. Changes can be made at any time through a simple contract variation, often without increasing monthly payments at all.

Predictable Cash Flow, Preserved Capital

With an Operating Lease, your capital and existing lines of credit are preserved for core business requirements. An Operating Lease doesn't impact your ability to borrow from your bank when you need it. It also provides the security of a predictable monthly payment with no residual value liability. You have the equipment you need, at a constant, known cost.

Tailor Made Finance

The Leasing Centre is one of Australia's largest independent business equipment financiers. We have more than 15 years' experience ensuring our tailored finance solutions fit our clients' needs, every time. Our finance specialists are experts in their fields, with experience across a variety of industries and markets. We pride ourselves on our relationships – with clients, suppliers, and Australia's leading banks and finance companies.
